

Construction Update E MONTPELIER Route 14 Bridge – week of November 5, 2017

Hello,

Next week the contractor, CCS Constructors, will continue work on the temporary bridge foundation on both sides of the Winooski River. The contractor will backfill around the foundations and work on steel pile and lagging.

On Route 2, the sidewalk has been completed and the driveways have been paved. Next week the remainder of the granite backing curb, behind sidewalk area where the slope is steep, will be set. The contractor will drill and dowel the blocks on the retaining wall near the junction of US 2 and VT 14 and undertake site cleanup.

Construction activities on this project will occur outside of the roadway and is not expected to affect traffic.

Unrelated to the bridge project, road maintenance work to repair a slope on the south side of US 2, just west of the E Montpelier Home Center will. One-lane of the road will be closed, resulting in alternating one-lane traffic on US 2.

The posted speed limit will remain 25 mph as the area remains a construction zone. Please watch for flaggers who will assist motorists traveling through the work area.

It is illegal in Vermont to use any portable electronic handheld devices while driving. The law carries fines of up to \$200 and points assessed if driving within a work zone.
