

Construction Update E MONTPELIER Route 14 Bridge – week of October 30, 2017

Hello,

Next week the contractor, CCS Constructors, will continue work on the temporary bridge foundation on both sides of the Winooski River. The contractor will finish backfilling around the foundations, set braces on both the abutments for the temporary bridge and begin construction of the bridge foundations on top abutments.

On Route 2, the remainder of the sidewalk will be poured next week and the driveways will be prepped for paving and paved later in the week. The remainder of the granite backing curb, behind sidewalk area where the slope is steep, will be set. The contractor will continue to set the remainder of the blocks on the retaining wall near the junction of US 2 and VT 14 will continue next week.

Construction activities on this project will occur outside of the roadway and is not expected to affect traffic.

BUT...every day next week there will be road maintenance work to repair a slope on the south side of US 2, just west of the E Montpelier Home Center. One-lane of the road will be closed, resulting in alternating one-lane traffic on US 2.

The posted speed limit will remain 25 mph as the area remains a construction zone. Please watch for flaggers who will assist motorists traveling through the work area.

It is illegal in Vermont to use any portable electronic handheld devices while driving. The law carries fines of up to \$200 and points assessed if driving within a work zone.
