

Construction Update E MONTPELIER Route 14 Bridge – week of September 25, 2017

Hello,

Next week, the contractor will pave US 2 at night on Sunday, Sept 24 and Monday, Sept 25. During the week, work on building a foundation for the sidewalk will continue, with the contractor installing curbing.

In preparation for building abutments to support the temporary bridge that will be used in 2018, CCS Constructors has installed a crane pad next to the Winooski River. The contractor plans to begin driving piles for the bridge foundation next week.

The posted speed limit will remain 25 mph as the area remains a construction zone. Please watch for flaggers who will assist motorists traveling through the work area.

It is illegal in Vermont to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.
