

VT 14 Bridge Project Construction Update Week of November 14-18, 2016

November 14-18, 2016, the contractor on the VT 14 Bridge Project, ECI, will mostly work on two tasks – one above ground and one below. The contractor will complete building the retaining wall near the intersection of Route 2 and VT 14 and continue to work on tunneling a 42-inch drainage culvert 8-14 feet underneath US 2.

Construction will occur days and evenings. The day time work will be done with little interference with traffic except to get equipment and materials in and out of the work area. During the night work (6 PM to 6 AM) there will be alternating traffic. Flaggers will assist motorists through the construction zone when travel is limited to one lane.

Throughout construction the speed limit through E Montpelier village will be 25 mph.

PLEASE DRIVE WITH CAUTION THROUGH THE WORK ZONE AND “HANDS FREE” IF USING A CELL PHONE
