

VT 14 E Montpelier Bridge Project Construction Update – Project Closing for Winter

Tomorrow (Friday, December 14) the contractor for the VT 14 bridge project in E Montpelier village will finish installing guardrail and close the construction site for the season. Work will resume in the spring to complete the project. Major items that will be done in spring 2019 are installing a sand filter on VT 14 south of the bridge, applying a final layer of pavement and installing a light pole for the pedestrian crossing signal.

Motorists are advised that the speed limit is 25 m.p.h. and speeding through a construction zone can lead to increased fines.

More information on the project is available on the project website,
www.vt14emontpelier.vtransprojects.vermont.gov.

Best regards,

Jill
